---

## Section VI - Spill Release & Waste Disposal Procedures

---

Contain spilled material. Avoid open flames or other sources of ignition. Avoid inhalation of vapors. In confined poorly ventilated areas use of NIOSH-approved respiratory protection may be required.

Cover with inert non-combustible absorbent material and remove to an approved disposal container. Dispose of in accordance with local, state and federal regulations.

---

---

### Section VII - Storage and Handling

---

It is recommended that this material be stored in a cool, well-ventilated area.

NOTE: Health studies have shown that exposure to chemicals pose potential health risks which may vary from person to person. Therefore, exposure to liquids, vapors, mists, and/or fumes should be minimized.

---

### Section VIII - Exposure Controls and Personal Protection

---

EYES: In general, the use of safety glasses is recommended. If the material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended.

RESPIRATORY: In well ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of NIOSH-approved respiratory protection may be required.

EQUIPMENT & APPAREL: The use of chemical resistant gloves is recommended. Acceptable industrial hygienic practices should be maintained.

VENTILATION: Provide adequate ventilation. Use local exhaust fan if necessary.
